

The Statistics to be used in the confidence interval for **one** population
(When the finite population correlation factor is neglected,...)

The Statistics to be used in the confidence interval for **two independent** populations
(When the finite population correlation factor is neglected,...)

The Statistics to be used in the hypothesis testing for **one** population
(When the finite population correlation factor is neglected,...)

The Statistics to be used in the hypothesis testing for **two independent** populations
(When the finite population correlation factor is neglected,...)
